JOHN SHERMAN.

Galveston News, Oct. 23.

Hon. John Sherman died in Washington yesterday morning. The remains of the venerable Ohian will rest in Mansfield, his old home town. The interment will take place on Thursday. Deceased was born at Lancaster, Ohio, May 10, 1823. He began his public life as a whig, but later became a republican. He was admitted to the bar in 1844; was a member of congress 1855-61; United States senator 1861-77 and 1881-97; secretary of the Deceased was one of the able statesmen of his day and generation and has been intimately associated with financial legislation for almost forty years. He has been a master in this line of public service and will have in history a place with the great financiers of the world. While Mr. Sherman is reputed to have been a cold man (a "venerable icicle," as his political enemies were moved to declare him), he was a man of honor and of unswerving character. It is very generally agreed that if he had been less scrupulous in his views of certain kinds of campaign work, he might have been nominated on one occasion for the presidency and would doubtless have been elected. That is to say, more imagination and less merit might, in this instance, have given him a place in history with the immortals.

WANNAMAKER

OPPOSING QUAY.

Pottstown, Pa., October 22.—Former Postmaster General John Wannamaker tonight made his first political address in two years. His speech here was the beginning of a brief tour for the candidates for the State legislature who are opposed to the Quay wing of the republican party in that State.

Mr. Wannamaker severely scored what he termed "the machine" and said that Tweedism at its worst was no worse than Quayism at its best, but that there was no best Quayism.

EASE AND DISEASE

A Short Lesson on the Meaning of a Familiar Word.

Disease is the opposite of ease. Webster defines disease as "lack of ease, uneasiness, trouble, vexation, disquiet." It is a condition due to some derangement of the physical organism. A vast majority of the "dis-ease" from which people suffer is due to impure blood. Disease of this kind is cured by Hood's Sarsaparilla which purifies, enriches and vitalizes the blood. Hood's Sarsaparilla cures scrofula, salt rheum, pimples and all eruptions. It tones the stomach and creates a good appetite, and it gives vigor and vitality to the whole body. It reverses the condition of things, giving health, comfort and "ease" in place of "disease."
